

Ultrasonic Nebuliser

MD6026

- Converts liquid medicine into a fine mist that can be easily inhaled
- Ideal for young children & people who have difficulty using metered dose inhalers and people who have severe asthma
- Ideal for the treatment of: Pulmonary disorders, tracheitis, bronchitis, sinusitis, allergies & colds
- Very quick and silent
- The transducer produces high frequency sound waves which activate liquid micro-drops (nebulisation)
- The nebulised drug is blown directly into the throat/nose by an electric fan
- Micro-drops reach all respiratory tracts
- Equipped with: adult mask, pediatric mask, mouthpiece, tube, ampoules
- On/off indicator light
- Mains powered
- Exclusive Italian design
- Product certified in compliance with directive for 93/42/EEC "medical device"
- Packed in a custom designed display box
- Full instructions provided
- Guaranteed for 2 years

Technical Data
